

I pay my taxes and I also pay for my children to go to private school. I am double paying for school. The purpose of having options for schooling is to allow us parents the choice of what we feel fits our children the best. You are taking that option away when you then tell us how and what they must learn with the dictator/bullying threat of "do it my way or there will be consequences". We are paying and choosing to go to private school while also have the option of allowing our kids access to be able to play sports, etc with the accreditation that comes with that. Please don't end up being a bully about this. I STRONGLY OPPOSE this.
