

Testimony for Education Bill

To whom it may concern:

I'm a Mom and a teacher at a private school. My children and hopefully my grandchildren will attend private school in the future. I do not agree with this Bill as it should not be up for discussion. I pay additional fees to have this right to choose what is taught to my child and the government should not be able to force instructions on teachers that parents do not wish to have talk to their children. I do not agree with this bill and ask that you pass a no vote for it.

Thank you, y

Your Boss the Taxpayer
