

You are doing such a good job with public education that I have pulled my kids out to private school. 49th in the country to get back to school is a disgrace. This year my TAG kids learned nothing in CDL. Please don't try to regulate the only schools that actually work in this state. You can't get public schools right, and now you're starting a preschool for all. The education in this state is a disgrace compared to the schools I attended in a POOR WORKING CLASS TOWN IN UPSTATE NEW YORK. 3 buses to take students home (3pm, 430, 6pm), school for 185 days, Every AP class imaginable. I move to this state and they only go to school 165 days a year. Parents have to drive on field trips. Your gig is up Oregon dept of education. You are failing our kids.
