

3/17/2021 – 8 am -Senate Bill 752 Senate Committee on Judiciary and Ballot Measure 110

I strongly oppose SB 752; a defendant with 'consent' should err on the side of caution and not proceed to have sexual relations with any person the individual may believe is 16 or younger. The insinuation by the Legislative Assembly to give a defense in this manner is repulsive. Will be presumed that would be/could be defendant may not prosecuted if pleads was 'not aware of age' defense be a value to the defendant, most likely. Although a slap in the face of the underage victim and their parent/guardian that an sexual manipulator could be exonerated for having sexual relations with a child under the 'consent' doctrine.
