**Re: I OPPOSE [SB 12]...** *Yessiree Bob, sign me up on dem drug junkets. Ahs needs dah sunshine and mah drugs.*

Pharmaceutical Tourism hasn't gotten any better.

What is going through your minds?

Healthcare costs continue to increase and now you want to give tax write-offs on those who travel to México and or Canada to buy pharmaceuticals.

Why not set-up secure "inter-net" purchases?

Quit giving tax write-offs for everything under the sun.

The Public Employee Retirement System (PERS) in Oregon is in major debt territory.

PERS debt is somewhere North of \$24 Billion dollars.

Why?

The worthless, good-for-nothings, colloquially referred to as; the State of Oregon Legislature failed in their financial fiduciary responsibilities.

The continuous deferral of required appropriations to PERS over several years is a damning portrait of irresponsible financial behavior of fiduciaries.

The benefit structure conferred upon family members of Public Employees has been, since its' inception, a significant drain on PERS funds.

As usual, there are "No" costs to the taxpayers concerning [SB 12].

*\*There are "No" Revenue, Fiscal Impact Reports and or a Budget Report.*

*\*There are "No" ancillary costs to identify and recover administrative fees.*

***Respectfully submitted,***
