

Dear Sir or Madam,

I'm writing to let you know that I'm very much opposed to SB 223. My husband and I chose private education for our children specifically because we wanted them to be taught from a faith-based curriculum that was guided by parent and community-member input, as we are the ones who know our children and neighborhoods best. We strongly believe in parent choice and hope those who represent us in our state government will support us in this ethic.

Thank you for all that you do for us--
Amy Harris
