

I strongly oppose this bill. My 5 year old has been able to attend an in-person pre-k program at prince of peace school for the 2020-21 school year. It has been life-changing for him and life-saving for me. With 3 older children in 3 different schools trying to learn online at home, I would have never been able to give him the time and attention he needed to develop his social skills and development at this critical age. He is happier, his poor behavior of hitting his peers was corrected within a week of attending in person school and learning proper behavior from his amazing teachers and consistent interaction with classmates. He is reading and has learned more than I could have ever been able to do from home. It is disgusting to me to think that you would take this option away from the public who needs and deserves options when the world is in crisis. Passing this bill will be extremely detrimental to a lot of kids and a lot of parents. PLEASE DONT DO IT!
