

SB 168 Support

March 17, 2021

Chair Patterson, Vice Chair Knopp and Members of the Committee

The Oregon Women's Rights Coalition has been advocating for women and families since the early 1970's. Over the years we have advocated for equitable treatment for all women and families.

SB 168- coverage for fertility and reproductive endocrinology services would provide more Oregonians the ability to access services at all income levels.

Other testimony presented gives real life stories of the need for this bill.

Please support SB 168 so that Oregonians have true coverage for all forms of reproductive health available to them.

Thank you for your consideration.
