

Attention: Rep. Rachel Prusak, Chair of House Health Care Committee Reps. Cedric Hayden & Andrea Salinas, Vice Chairs  
Members of the House Health Care Committee.

RE: HB2970

This Bill would cause more issues and not correct the problem in hand. I do believe Basic Esthetics should be able to perform treatments with the Devices that are relevant to their scope. But HB2970 is not the right Fix and allowing the BOC to make those changes is just plain wrong.

Thank you,

Ronnie Clark
