

Members of the House Health Care Committee

I am writing this letter as a consumer and am opposed to HB2970. I live in Portland and remember what was happening in 2013 at the Spa Forever Young with all the complaints and harm that happened there. I do not want to see the Board of Cosmetology take steps backward and put consumers in harm's way.

If a Fix is needed this is not the right direction for the BOC to take.

Respectfully,

Christine Simpson
