

3/18/2021 – 8 am -HOUSE BILL 2190, 2530 and 3357 Joint Committee on Transportation

Repeal ORS 810.436 and 810.437, traffic cameras do not increase safety on public roads, but increase surveillance on the public. If the Bill stated that those cities with the authority to incorporate traffic cameras and stop light cameras were mandated not to use face recognition technology in conjunction with the cameras recorded video, traffic cameras and stop light cameras might be more acceptable to the public.
