

My name is Hilary Uhlig and I am writing in support of SB261.

The walkouts during the legislative sessions over the past 3 years must be stopped. Legislators who fail to do their jobs by refusing to show up for work must be held personally accountable for stalling the legislative process. If they choose to continue this tactic, they must be prevented from collecting contributions or donations to defray their fines, expenses, or losses. If they choose to engage in any further walkouts, they must personally be accountable for the cost of their behavior.

I urge a yes vote on SB261.
