RE: Requesting Support for SB 714

Dear Senator Michael Dembrow, Representative Khanh Pham and Representative Earl Blumenauer

As an Ombudsman I am writing in support of legislation SB 714.

My mother is in a long term care facility in another state and I've been frustrated by response time to her care and her care being neglected. I do not want that to happen to anyone. I am especially concerned for those who are in Memory Care and might not be able to express their needs.

Sincerely,
