

I oppose HB 3297; people are already somewhat aware of the dangers of alcohol - people consume alcohol to relax, are addicted, or just want to feel like crap the next morning. If you gave each customer a paper notice warning of the dangers of alcohol consumption on their health, it would end up on the floor of the establishment. What an overall LOL, this proposal is worst waste of money yet this biennium. The state operates OLCC liquor cartel in Oregon and 1 of 17 states and one MD County that controls alcohol distribution, out of 50ⁱ. Perhaps the state should hand the alcohol tracks to warn people at the OLCC agency store, but then the litter is just transferred outside. Few months past USDA released of recommended daily dietary consumption, men 2 drinks per day, and women 1.ⁱⁱ Could you all tell the TRUTH, alcohol is ethanol, the same additive (E10) of gasoline to cut down on Co² pollution but still fires hot enough in newer cars to create thrust.ⁱⁱⁱ Although poison to the human body, so much that it changes the cell composition and the cell becomes distorted and unhealthy, and if that is not bad enough alcohol attacks bones and tissues.^{iv} Alcohol is a drug – just like heroin is to a needle or pipe user. In other words, the state is a drug distributor – and since Measure 110 is now the supposed knight in shining armor and here to rescue its citizens from drugs because that is what socialist type government does. Moreover, there is no way that a person that enters the revolving door of treatment by order of the state or temporary acquiesces to mental health worker that promote for profit. People will give up not give up their vices until their ready, it's known as free will, the reason why people of the world have come to settle here. Next evolution, to politicians' astonishment, cannot or will not understand why people are so disenfranchised with government. Legislators, no matter how many workers you hire and how much socialism rhetoric you throw at the wall, we are the people, the citizens, and discontinue degenerating by the name; public. Government has evolved from public servants to public service but should evolve again to civil service.
