

I stonlgy oppose speeding cameras! You are using this as extra revenue under the guise of safety. It supplies the manufactures of cameras contracts while preying upon Oregon motorist. What is the argument those proposing this bill are trying to make? That if everyone is under the surveillance of a camera our society will be safer? Im a life long Democrat and support help from government in terms of Medicare for all and EPA regulation. However this Orwellian 1984 society Oregon has been placing on our roads needs to end.
