

I oppose HB 262

This bill is a partisan attempt to control the legislation. Our Republican leaders are working hard so the citizens voices can be heard. Instead of working so hard to punish our hard working leaders, why not work harder at listening to ALL Oregonians and not just the ones within your party. Make more common sense bills, work with the other parties and come up with good laws and bills for ALL of Oregon. I've watched many of your on line videos and the Democratic party isn't doing this. I notice that there is little compromise on your bills. You can all do better and be better leaders.

The average Oregonian is in need of real leadership, not just leaders that want to have their way or vote themselves a raise. The democratic party is making this into and all out war. I'm proud to say I switched parties two years ago. I was a life long Democratic and found I wasn't voting for any democrats. Bring back the party I grew up with and show Oregonians you are not bullies.
