

I think this is a wonderful idea. How do I become one of the people on the committee?

Either way, my proposal is that the Charter Schools should be administered by the ESD's around the state. They already exist to administer alternative schooling. It is a conflict of interest for the local school system to administer the charter schools because most school systems are run by people who want everyone to attend their schools. The charter schools are seen as an entity that takes money away from a school system

Thank you for listening.
