

The very foundation of our Nation and its Society is and always has been the "Law." Our Law, which was created in our Constitution holding within our Bill of Rights, and our Sacred Declaration of war Independence. All Laws are without "Emotion." This is the only form in which they have a guarantee of being perpetual and everlasting. Convictions for "Felonies" by our Laws have always carried punishment far beyond prison, fine and parole, as a continuous reminder to those who commit "Felonies", " As a result of your choosing there are certain areas of Society Forever Not Open To You Forever More!" Just as Our Laws require a "Trial by Jury and a Preponderance of Evidence to Prove Guilt" to save One Innocent from Conviction, so must Our Laws "Require All Convicted Felons from being in or near Schools" to save the Life and Soul of One Child.
