

Hello, The Portland Raging Grannies support HB 2021 to help low and middle income families make changes that will reduce energy bills, support home upgrades to keep families healthy, and have good jobs all the while transitioning to 100% renewable energy by 2040.

We can build a strong, resilient, and clean energy economy in our communities by ensuring that Oregon's 100% Clean Energy Standard includes:

? Strong labor standards that ensure clean energy projects hire local, pay the prevailing wage and provide good benefits, and reserve opportunities for apprenticeships.

? Good incentives for community-based energy projects such as solar plus storage that increase energy independence, affordability, and disaster-resilience.

We recorded a song that I can't upload as testimony but I will include link to the video here: <https://www.youtube.com/watch?v=AAERD0Ah7Y0>

Thank you Joana
