

3/23/2021 - 1 PM - Senate Bill 838 Senate Committee on Housing and Development

I am completely opposed to Senate Bill 838; Oregon Revised Statute 190.255 currently allows inter-agency cooperation for records concerning property. I do not see a need to have the Secretary of State compile a list of property not occupied by an owner in this state. It is an entire waste of state resources and revenue to duplicate property record information. The legislative Assembly is becoming entirely too intrusive in citizens and property owner lives.

If a state agency has need to contact the owner of the property, the state employee only needs to telephone the county clerk where the property is located.
