

HR 3265 is a bill that is important to me, and I urge you to support its passage. I have worked with and lived among refugees and immigrants for over 40 years. This bill will help Oregonians feel more safe, secure and protected. As a Quaker, I believe that community is a central part of my faith. This bill will support members of my community who have fled violence in their countries of origin. Their plight and suffering weighs heavily on my heart. They live in fear, which no one should have to do. This bill would help build trust and actually codify protections for immigrants and refugees. Thank you for your support for HR3265.
