

I have been a type one diabetic since I was 17. I've lived my life forever worrying about insurance coverage, deductibles & copays. Insulin is just ONE prescription I need to survive. The costs add up no matter how good of coverage I have. I am one of the lucky ones who has a full time job that offers insurance coverage. Not all are so lucky. NO one should have to ration insulin usage due to cost. Insulin is so incredibly expensive & it's unfair to the people who are diagnosed with a disease they have no control over. This bill could help SO MANY PEOPLE. It's time to put people's lives over money.
