

It would greatly be appreciated if you helped out our local Madras Movie Theater. It hasn't been here for long and seeing it shutdown would be heartbreaking. I believe this movie theater has brought families together and helped out a lot of families who can't go out of town to have a family movie night. Personally it helped my family have a movie night for the time. We would go atleast once a week to go watch a movie which made our family bond even stronger. Hearing how happy other families are when watching a movie makes me happy. Knowing everybody is having a good time. Madras Cinema 5 really needs your help. Please help us keep this local movie theater alive and ready to go for the new families to come. Thank you.
