

I write in support of HB3265 that provides protection to immigrants and should allay the DREADFUL FEARS experienced by those whose status is questioned. Neighbors/residents should NOT have to live in fear in this country because of aggressive/unjust laws and officials. Security is important to everyone; we all should be concerned about the safety of others.

I am of the Christian faith and have a deeply-held belief that we are called to care for each other- all others. All our lives benefit when we seek to lift up those who need a hand.

Thank you so much for bringing this bill to the floor. Please give it careful consideration.
