

Hello,

I am writing a testimony concerning this HB 3376, in reference to the Salem Cinema located on 1127 Broadway NE. This theater, while small comparatively has a large impact on it's broad audience. Due to the variety in their selection, there is always a good movie to see. It is always squeaky clean and the service is friendly and efficient. I frequent this theater as much as I can, and have missed it dearly this passed year. When I leave the theater, the movies I see stay with me and resonant. Another aspect of this theater is, I like the idea if supporting a small local business. I request that funding is granted the Salem Cinema! Lets keep the good movies in town!

Thank you for your consideration
