

I would ask you to pass this bill in support of Salem Cinema. They provide an important venue for the entire community. They have struggled to stay afloat during an entire year of closure, and still have to deal with decreased customers due to limits placed upon them by the coronavirus rules and regulations. They have done everything possible to be able to stay afloat. We love Salem Cinema and have missed attending movies there this past year. The people of Salem need this theater in our community.. Please let's pass HB3376 and help these businesses.
