

I firmly support the arts as an important part of our community and culture. Music, dance, theater, fine art, and Film provide away expand our minds and come together as a community. Please support the arts, and in this case, film, as a critical part of our community. I have supported live theater, live jazz and symphonic music, visual arts, and the fine programming provided by Salem Cinema over the last 30 years. Please help us keep the arts alive and thriving for adults and our children in all our communities.

Joseph H Allan, M. D.
