

Good afternoon Chair and members of the Judiciary Committee. My name is Juana and I live in the Multnomah County. I am a volunteer at the Oregon Food Bank. I am a mother of 3 children. For me it is important that my children and myself to have the fortune of feeling welcomed and appreciated members of this city. WE go to work every day even though we do not have any guarantee that we will return home at the end of the day. I run the risk of being stopped and separated from my family by the police who might assume that because of my racial profile I am an undocumented immigrant who might not be able to speak English and might not know my rights.

All Oregonians need protection and safety. We need to have a justice system to make sure the laws protect all of us and that they laws are followed. I request your support passing Bill 3265. Thank you for your attention.
