

I've lived about 1/2 block off of SE 82nd for the better part of 20 years. The condition of the road has not improved over time. Anytime I've called on a pothole or other roadway issue, the response is normally within a month (if at all). 82nd needs attention for safety and better response to maintenance. The city of Portland could do a better job of maintaining the road. Please pass HB2744.
