

I support HB 2358 because all workers deserve to be treated fairly and humanly. Farmworkers have been excluded from minimum wage, overtime pay, and the right to collectively bargain since the Federal Labor Standards Act was passed in 1939. This is wrong, it is racist, and it is sinful. As a patriot, a veteran, and a Christian I believe we should do the right thing and pass HB 2358. The America I want to live in is one where all workers are treated with respect, dignity, and fairness and I don't give a damn where they are from or the color of their skin.
