

Hello, I support oregon bill 2728 to PASS in order to ban killing contests. I have witnessed total carnage, with trophy hunters, they have psychopathic tendencies that need to be curbed. There is much ignorance about coyotes, wolves and their importance in an ecosystem. They help to balance deer populations, and ticks.

As a Californian, i've been appalled by all the proud boy movements- torching cities, etc. White nationalism. Is this what Oregon will look like in the future? Another Idaho that bends over to gun enthusiasts and ranchers?

I hope not.

Please consider pandemics like COVID -19 are started by imbalances with nature. Let's move forward!!
