

Senate Committee

March 21, 2021

I Antonio Sanders is writing this letter to the Senate Committee on behalf of myself asking that the measure 11 bill be retroactive, I've served many years in Prison to reflect on my actions and I've altered and matured into a man allowing me to be ready to face freedom and be a civil man of the community. If the measure 11 ballot was to be granted retroactive it wouldn't just be a amazing opportunity for me but for other chivalrous people ready to prove themselves and be successful, I want more for myself and for my children, and to be able to live life with them in freedom would be pure bliss. I'm a outstanding active father, loving fiance, son and grandson ect.

This would mean alot to my family because they know the determination I have to be a great man and give back to my community I've spent alot of time thinking on ways to be successful and to accomplish things to set forth a healthy life for me and my family, I just really want that chance to have a second chance, this would be a great outcome and I'm hoping it can be considered.

I'm one man ready to be somebody,  
and it's many more like me hoping  
we can prove it to the world.

Thank You for Your time

A. Sondere
