

I oppose SB 334. In reading through what the "specified training" would include, I found "(F) Prohibitions against discrimination, including requirements for compliance with ORS 659.850; (G) Methods for promoting inclusion and for eliminating racism and bias in the classroom and the workplace; (H) Methods for achieving equitable academic outcomes for all students" this is a nice way of saying that critical race theory will be implemented. I oppose critical race theory (CRT) because it is a theory that further divides us. The kind of thinking CRT leads to is the haves and have nots, the victims and oppressors, the superior and inferior - it leads to guilt and shame as well as hopelessness and anger - this is emotional child abuse and I cannot stand for this to be taught in our schools. I oppose Sb 334.
