

Senate Committee, let us prove ourselves! Vote in favor of SB191

My name is Gustavo Vega! I've served a little over 6 years on a 13 year sentence for an Attempted Murder where no one was hurt. I completely understand that I have to be held accountable for my actions, but I don't understand why the law won't allow me to show how much I've truly changed? I'm very fortunate to have a very strong support group in the free world, they provide me with self help books & positive guidance. But what about the people who are less fortunate? We measure all guys have no programs to help better our selves, how does the state expect for us to be rehabilitated when it does not even attempt to fix us?

I have a beautiful daughter & son who can not wait for their Daddy to come home. Why not let me prove that I deserve to go home earlier? I would love to show how much I've grown through out this time & how bad I want to be home with my family. My amazing wife has been hold down the fort & the pandemic is making it very hard to pay our mortgage... She needs me, They all need me...

Please vote yes for Bill SB191. I strongly believe "All" AIC's no matter race, gender, or crime should have equal rights & should be able to prove our selves through personal achievements for our improvements. I know for a fact it will change the whole dynamic of the D.O.C. making it a safer & moral environment for the AIC's & Staff alike.

You will be receiving letters from my wife & children, please help them have me home sooner because I'm truly doing all I can to be a better man... Thank you for your time
Sincerely Gustavo Vega
