

Please vote yes on HB 2367. Criminalizing the houseless doesn't serve any purpose.

Houselessness is its own deterrent- no one wants to be on the streets, they are there because they have no other options.

Jailing and fining the houseless is nonsensical. They won't be able to magically find money for housing, therapy, or detox (or a detox facility with an opening).

The seizure and destruction of tents and other property of the houseless is a horrible, inhumane action. For many that was all they had, and for some that may even be a death sentence.

This Bill is a good first step, creating housing, treatment facilities, and services that actually meet the needs of the people in the long run.
