

To whom this concerns,

I find it appalling that gruesome coyote killing contests are happening in Oregon. I am an avid hiker and backpacker. I am thrilled when I have an opportunity to see any sort of wildlife. Animals are living creatures, just as we are. They have families, emotions, and the right to live peacefully. It is a brutal act of violence to make play of killing humans, or animals, for that matter. Please support HB 2728 legislation to end this unconscious and unethical behavior.

Sincerely,
Carolyn Timberlake
