To whom it may concern,

My name Sean Tester. My mom is Barbara. I have been diagnosed Bipolar I. I had a psychotic break and beat up my mom when she tried to get help for me.

I am now on proper medication, Behavioral Health services compliant, & doing quite well.

I'm a trainer at work in Oregon Correction Enterprises' Call Center. I am a contributor and active member in programs and clubs within the institution. I send my family birthday cards and money.

Prior to coming to Oregon State Penitentiary I had completed a two year program to become a certified mental health counselor at Portland State and P.C.C. I have a bachelor's degree I earned in Eugene from University of Oregon (Biology).

I plan to earn a Master of Social Work degree upon release while working as a Peer Support Specialist at the "William Romprey Warm-Line" call center through Oregon Health Authority (OHA) in Oregon City.

My mom would like for me to be able to earn a reduction of the mandatory minimum sentence with good behavior and clear conduct; as would I. Thanks!

All the Best,

Sean Tester
