

Dear Senate Committee,

3.27.21

I am writing to you today to give you my testimony. This testimony is regarding how My Family and I would benefit from the retroactivity of SBI91. This is to Augment the chances of ~~to~~ ^{and to get} myself home ~~to~~ ^{and to get} SBI91 passed. Thank you for your time and consideration, here is my testimony.

I was only twenty years old when I was sentenced to 240 months under measure 11. I had yet to experience young adulthood. As of now I never will, I understand that is nobody's fault but my own. But with SBI91 there is a chance I can.

Another more important reason for my testimony is my Family. At a young age I was adopted by my maternal grandmother, along with my three siblings. She took care of us and gave us her all. Now she is getting to the age where it is our turn to take care of her. Of course you would say she has your other siblings to do that, but sadly that is not the case.

Due to a falling out that occurred after my incarceration. My siblings no longer talk to my grandmother. I am all she has left and the sooner I can get home, the sooner I can care for her.

I have set myself a list of goals to better myself. I have begun self treatment and practice my own new found learnings. In hopes that I will be able to show that I can and will be a productive positive member of Society.

Oregon is said to be an equal opportunity State. I ask you to pass SBI91 and give me the

opportunity to get the chance to be a positive member

of Society.

Sincerely, GARY Streeter
