

Please support fair pay for Naturopathic Doctors. I have found immense benefit from the services they provide in improving my health and keeping me off of medications as I age. They provide a crucial role in our healthcare system and need to be supported in the same way any other physician is supported by the industry. This includes the ability to make a fair wage, repay their loans and support their families as they provide healthcare to our community. Thanks for your consideration!

Sincerely,
Audrey Allen
