

House Committee on Energy and Environment,

Individually and professional  
your deception and betrayal speak volumes! You snuck in the -5 amendment to HB 2021 and invited supporting testimony and haven't even published it on OLIS for us to see. You betrayed your Republican colleagues by dropping it on them only hours before the hearing. Your actions unveil your dirty political tricks for all to see. How does knowingly deceiving Oregonians make you feel? You should be ashamed of yourselves, but instead I bet you're sending thank you emails to those you invited to testify in support of your betrayal! Disgusting!

Ashamed, appalled and with grave concern, I call for a time of moral courage,

Deanna Hagerman
