

I [SB 3322] WITH RESERVATIONS. Not everyone will be afforded a gardening space.

It is unfortunate, vertical housing and other pathetic housing instruments sired from the corrupt loins of [HB 2001] and [HB 2003] will not have "backyards or even front yards" for homeowners to garden the way they so desire.

[SB 3322] will provide "community garden spaces" and people will get used to this form of gardening but, unfortunately, they will be saddened if and when their gardens are vandalized, their property stolen.

Also, there will not be enough gardening space for everyone.

No matter how you slice it [HB 3322] perpetuates the lies continuously used to support high density housing.

[SB 8] if passed, will only make life in Oregon a lot worse.

David S. Wall
