Oregon Senate Committee On Health Care

Senator Deb Patterson
Senator Tim Knopp
Senator Lee Beyer
Senator Dallas Heard
Senator James Manning, Jr

Reference: SB 684

Senators,

I have been following the procession of legislation flowing through the Oregon Legislature, in particular SB 684. It is with extreme and critical concern that you ladies and gentlemen charged with the responsibility of shepherding new legislation consider the issues raised by Dr. Eric Dover. I am in 100% concurrence with the points Dr. Dover enumerates. I and many other physicians and their families and patients have suffered grievous harm at the hands of the Oregon Medical Board as well as the Department of Justice. Unscrupulous, criminal and scandalous behavior of bureaucrats and administrators, elected or appointed, potentially face prosecution. The OMB in particular has no oversight!

I have attached a copy of testimony given by my now ex-wife who along with my 2 young daughters daily suffer the harm imposed by the OMB (Oregon Medical Board) and its minions. Consider with grave caution your present undertaking.

Sincerely,

David J. Ogle, MD (Forced into retirement)
