

I am a moderate Democrat. I oppose this Timber Tax. It will make the cost of all wood and Christmas trees increase. Right now I'm still behind on rent due to Covid-19. I can't afford to pay out more money that is just going to taxes. This means I won't be able to afford to do any projects; buy any furniture; have a Christmas tree. Also, I was hoping to build my own home in a couple years on some rural land. If the timber prices increase then my dream is gone. Please, please, stop the Timber Tax bill. Thank you!
