

Strip logging is sustainable. Clear cutting is not! Contact me to find out how. 503-995-1231

One of the best ways we can continue to share key information to our leaders is by providing insights to our carbon emission issues and how to remedy without major effects to our economy and environment. A balanced approach as outlined below is a proven way to decrease atmospheric CO2 levels.

Please go to <https://www.whitehouse.gov/contact/> Also your state Governor.

Put in your information then copy and paste the below. Please do this multiple times a day.

The Green New deal and Paris Climate accord are the wrong solution. The Intergovernmental Panel on Climate Change reports are inaccurate and are falsely skewing Data. <https://cctruth.org/ipcc.pdf> Publishing garbage manuscripts in a journal whose chief editor that has a degree in Political Science. Is not science.

11th Climate Change Conference [https://cctruth.org/GES\\_12-14-2020.pdf](https://cctruth.org/GES_12-14-2020.pdf)

These are well documented facts about Climate Change

-Atmospheric CO2 is not an emissions issue; it's a loss of photosynthesis issue due to deforestation.

-IPCC GWP model is false Methane is less of a greenhouse gas than carbon dioxide.

-Global sea rise is 1.1 mm/yr and linear not accelerating!

-On Netflix please watch "kiss the ground" movie! These scientists show correctly if we stop breathing it wont lower atmospheric carbon dioxide.
