

Hello my name is Hailee Truesdale I am 24 years old. I am currently serving 70 months for a Rob II and assault II. I was arrested when I was 21 years old. Since I was arrested I have been changing my behavior. I have a drug addiction as well a drinking problem. This is my first time in prison, I have been working on myself. While I have been working on myself. My father has gotten very sick, he is all I have. It would mean the world not only to me but to my dad, if the measure II would get good time. treatment would be what I need. Most of people that are serving measure II have changed for the better, we deserve that second chance at life. I ask to not only give measure II good time but it to be retroactive.

Thank you for your time.

Sincerely,
Hailee Truesdale
SID# 19465042.
