

Hello, my name is Mandee Seeley, I'm a member of Residents Organizing for Change and an advocate in my community.

I am asking legislators to vote in support of HB2367 because I have been houseless myself and know what's like to be harassed, judged, and treated as less than simply because my family didn't have a house. People experiencing homelessness are in survival mode constantly and don't deserve to be treated like criminals just for surviving in the world our system has created for them. Like air to breathe and food to eat, housing is a basic human need, so are dignity and rest, this is why I support Right to Rest. Thank you.
