

Oregon is so offended by white people colonization that they are letting the homeless colonize it and Oregon is encouraging it. I love being a tax payer and my money going to my mortgage, supporting small businesses, trying to find a yurt or camp site in Oregon only to also see a tent or structure just randomly be popped up any where for however long they want. Taking my kids to the park and what was once a great spot along the river is now owned by a homeless person. I love driving to Salem and seeing the residents under the I5 interstate pour their buckets of urine down the storm drain. It really shows that Oregon really cares about the homeless. Well done. Keep up the good work.
