

Date: 3/7/2021

Oregon House Judiciary Committee  
Testimony in Favor of HB 2367, Right to Rest  
Hearing: 3/9/2021

Dear Committee Members:

I am unhoused and want you to know I support the Right to Rest Act, HB 2367 because:

I am currently living rough in Reeburg OR because I have no other place I can go.

I have been homeless for 8 months.

I don't have enough income to get a place to live.

I have one or more disabilities.

Because I am homeless and have to live rough outside:

- I have been told to move from where I was staying.
- I have been threatened with tickets or arrest for being in a public place
- I have been ticketed for sleeping, camping, lying down, or otherwise resting
- I have been arrested for being homeless

I do not have the income to pay for housing. So I have no other choice but to be on public property. This should not be a crime or even a ticket. This only makes things worse for me and others who are living outside because we have to.

Because local cities and counties won't do the right thing, please protect us and our constitution rights to just exist by passing HB 2367, the Right to Rest Act.

Thank you,
