From: Christina Schloegl, Executive Assistant to the Superintendent and School Board of Directors for the Rogue River School District

RE: Rogue River Wellness Center

Date: April 16, 2021

I would like to express my support for budgetary funding to be allocated towards the Rogue River Wellness Center.

I attended the Rogue River School District as a student until 1988. In 2018 I returned to the Rogue River School District, with children of my own, where I have proudly served as an employee and member of the community.

I have had the opportunity to live many places but none as wonderful as Rogue River. This is a hardworking, caring, and charitable community.

Unfortunately, we do lack a health clinic, childcare opportunities, and after school options.

I ask for your support with our growing needs. A Wellness Center would be highly beneficial to us as it would provide a safe and nurturing place as well as community spaces. It would also provide us an opportunity to receive healthcare from La Clinica. Many in our community currently have difficulty in attaining this care.

Thank you for your time and support.

Sincerely,

Christina Schloegl

Executive Assistant to the Superintendent and School Board of Directors
Rogue River School District #35
