

SB 554 makes the law abiding members of our communities felons by doing so little as walking too close to a building. I certainly wish that our local government and leadership would do more to stop the behavior of the criminals. Having a CHL means that a person has been background checked, free of any convictions, meeting none of the criteria to be denied such a permit. In, shot, there isn't anything to worry about the law abiding CHL holder. Why punish CHL permit holders and do nothing to stop the real criminals? Senseless and wasteful. There is so much more you could do to better make use of our local government.
